Fideuram Fund Equity Market Neutral Star

Sub-Fund of Fideuram Fund (ISIN LU0139057037)

Management Company: Fideuram Asset Management (Ireland) dac, Intesa Sanpaolo banking group

OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund, expressed in Euro, aims to provide consistent absolute returns through investing indirectly in numerous absolute return strategies primarily composed of listed equities and related instruments (the "Exposed Strategy"). Given its long-term investment strategy, the Sub-Fund seeks to maintain the value of the capital through the use of various investment strategies techniques. The Exposed Strategy is composed of listed equities (including eligible ETFs up to 10% of the Sub-Fund's net asset value, and other equity related securities), financial derivative instruments involving (list not exhaustive) OTC, options, forward contracts and futures.

exhaustive) OTC, options, forward contracts and futures. The Exposed Strategy may be invested up to 20% of the Sub-Fund's net asset value in China-A shares via Shanghai-Hong Kong Stock Connect.

The Sub-Fund will gain indirect exposure to the Exposed Strategy by investing mainly in unfunded TRSs with the Underlying Portfolio(s) as underlying on an arm's length basis with first class financial institutions acting as swap counterparty (collectively the "Portfolio Swap").

with first class financial institutions acting as swap counterparty (collectively the "Portfolio Swap"). The Sub-Fund may use a Portfolio Swap (which will deliver the economic performance of the Exposed Strategy) and also a Financing Swap whereby the Sub-Fund will purchase Financing Assets and transfer full economic interest in such assets to first class financial institutions acting as swap counterparty pursuant to swap agreements.

counterparty pursuant to swap agreements. The Financing Assets will be equity instruments (including ADR and GDR), and will have no more than 30% exposure to emerging markets.

emerging markets. Each Underlying Portfolio will comply with the investment policy of the Sub-Fund and more particularly with the Exposed Strategy and will be managed by a Multi-Manager as appointed by the Management Company. The Sub-Fund may be entirely invested in TRSs.

RISK AND REWARD PROFILE

Lower risk Potential lower reward

- This Sub-Fund is classified in the risk and reward category 5 because the investments value can be subject to very high daily variation, both positive and negative.
- The historical data such as is used to calculate the synthetic risk and reward indicator may not be a reliable indication for the future risk profile of the Sub-Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and the categorization of the Sub-Fund may shift over time.
- Even the lowest risk category does not mean a risk-free investment.
- THE SYNTHETIC RISK AND REWARD INDICATOR DOES NOT ADEQUATELY CAPTURE THE FOLLOWING RISKS:
- **Derivative risk**: in order to achieve its objectives, the Sub-Fund may use derivative instruments whose value may be subject to price fluctuations, positive or negative, much larger than those of the securities in the same Sub-Fund.
- **Counterparty risk:** The Sub-Fund invests into instruments, such us derivatives, by entering into contracts with financial counterparties, exposing itself to the risk that said intermediaries may generate financial damage to the fund itself by bot fulfilling their obligations in the future.
- Operational Risk: risk that operational processes, including those related to quantitative trading models implementation and to the safekeeping of assets may fail, resulting in losses.

Direct investments, for cash purpose, may include debt securities issued by governments, corporations, or institutions, low risk, money market instruments and deposits with credit institutions without limit of duration or currency.

The Sub-Fund does not invest more than 10% of its net assets in units of other UCITS or other UCIs and will not invest in Contingent Convertibles (CoCos) nor asset backed securities (ABS) nor mortage backed securities (MBS).

The Sub-Fund can invest up to 30% of its net asset value in non-investment grade debt securities. The sub-fund will not purchase distressed securities nor default securities. The Sub-Fund pursues a discretionary currency badging

The Sub-Fund pursues a discretionary currency hedging policy to manage investors' capital in line with its long-term investment strategy.

Although the investment objective of the Sub-Fund is to provide investors with consistent absolute returns by implementing a set of market neutral investment strategies, the net market exposure of the Sub-Fund may temporarily vary according to the Multi-Manager's view of market prospects and the Underlying Portfolio may be net short of markets or net long of markets. However the overall net market exposure of the Underlying Portfolio generally does not exceed a range from 50% net short to 50% net long. The Underlying Portfolio takes long and short positions over a variety of time periods, however the combination of long and short positions may never results in uncovered short positions.
