# Fonditalia Equity Global Emerging Markets

Sub-Fund of Fonditalia Fund

Class R (ISIN LU0109666981) / Class T (ISIN LU0388708587)

Management Company: Fideuram Asset Management (Ireland) dac, Intesa Sanpaolo banking group

## OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund, expressed in Euro, aims to reach a positive return over time by investing essentially in stocks listed or dealt in on a regulated market, whose assets are mainly exposed to the economy of Developing Countries at a worldwide level notwithstanding their possible quotation on other markets.

The Sub-Fund will concentrate essentially on investment in the Asian, Latino-American and Eastern European Emerging Countries.

The Sub-Fund may invest in China A-shares via the Shanghai-Hong Kong Stock Connect program which allows foreign investors to trade certain Shanghai Stock Exchange listed China A-Shares through Hong Kong based brokers.

The Sub-Fund may use financial derivative instruments not only for the purpose of risk hedging but also for investment purposes.

This Sub-Fund has two Unit-Classes: Class R and T.

The benchmark of the Sub-Fund consists of the index "MSCI Emerging Markets" Price Return in USD and converted in EUR (represents the performance of the Emerging Countries stock market).

The Sub-fund is actively managed and the degree of freedom allowed within the management of the sub-fund is significant. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. This may impact the extent to which the composition of the portfolio and its performance deviates from that of the benchmark.

R and T are capitalization Unit-Classes.

You may request to redeem the units held at any moment, by sending a request on any business day.

## RISK AND REWARD PROFILE

Lower risk

Potential lower reward

Higher risk

Potential higher reward

- The Sub-Fund is classified in the risk and reward category 6 because the investments' value can be subject to high daily variation, both positive and negative.
- The historical data such as is used to calculate the synthetic risk and reward indicator may not be a reliable indication for the future risk profile of the Sub-Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and the categorization of the Sub-Fund may shift over time.
- Even the lowest risk category does not mean a risk-free investment.

### THE SYNTHETIC RISK AND REWARD INDICATOR DOES NOT ADEQUATELY CAPTURE THE FOLLOWING RISKS:

- **Developing market risk:** The Sub-Fund is exposed to securities highly sensitive to political and economic instability of developing countries such as civil conflicts, changes in government policies and in taxation, restrictions on foreign investment (including capital control), currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investments may be made. Price changes may be higher than those in the markets of developed countries. Investing in the People's Republic of China (PRC) is subject to the risks of investing in emerging markets and additional risks, which are specific to the PRC market. In case of investment in China A shares, where securities are held in custody on a cross-border basis, there are specific legal/beneficial ownership risks linked to compulsory requirements of the local central securities depositories.

## CHARGES

These fees and charges are used to pay the costs of running the Sub-Fund, including the costs of marketing and selling. They reduce the potential growth of your investment.

For the switch of units, you may choose alternatively two systems of fees: the tariff "by transaction" and the tariff "fixed" (applied on a quarterly basis on the capital invested). The **ongoing charges** figure is based on expenses for the year ending on 31/12/2019. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit fee paid by the Sub-Fund when buying or selling units in another fund.
