OBJECTIVES AND INVESTMENT POLICY

The Sub-Fund, expressed in Euro, aims to obtain a positive return over the reference benchmark index by investing in:

- a) equities mainly issued by companies listed or traded on stock exchanges or any regulated markets of the countries comprised in the index;
- b) derivative financial instruments including but not limited to futures, options, swaps, unfunded TRS and contracts for difference on all types of financial instruments;

instruments. The Sub-Fund may use financial derivative instruments for the purpose of risk hedging and for investment purposes. The benchmark of the Sub-Fund consists of the index "MSCI USA", Price Return Index Hedged in EUR. The Sub-fund is actively managed and the degree of freedom allowed within the management of the sub-fund is significant. The relative risk and positioning to the benchmark is monitored. To provide a disciplined management approach, risk limits are set to contain investment risk. This may impact the extent to which the composition of the portfolio and its performance deviate from that of the benchmark. This is a capitalization Sub-Fund. You may redeem the shares held at any moment, by sending a request on any business day.
